Legend of King Arthur
• LEGEND
• *A legend is a story purported to be historical in nature, but without any proof.
• * Examples: King Arthur, Robin Hood
• * Where evidence of the existence of actual historical figures exists, figures like King Arthur are legends due in large part to the many stories that have been created about them.
Who was he?

- The figure at the heart of the Arthurian legends
- Said to be the son of Uther Pendragon and Igraine of Cornwall
- He has been presented as a near mythic figure in Celtic stories, and in early Latin chronicles he is known as a military leader
• In later romances he is presented as a king and emperor
• Arthur was most famous for designing an order of the best knights in the world
Did King Arthur really exist?

• Some modern scholars believe that there was an actual person at the heart of the legends, though not necessarily a king with a band of knights in shining armor.

• If there is a historical basis to the character, he would have gained fame as a warrior battling the Germanic invaders of the late 5th and early 6th centuries, though it is the Arthur of the late Middle Ages who has most captured the imagination.
• What is important about this legendary figure is his influence on literature, art, music, and society from the Middle Ages to the present.

The Knights of the Round Table

- Arthur was most famous for designing an order of the best knights in the world.
- **Knights of the Round Table:**
  - Men of courage, honor, dignity, courtesy, and nobleness
  - They protected ladies and damsels, honored and fought for kings, and undertook dangerous quests.
  - Logres was the Arthurian realm of virtue - the spiritual counterpart of Arthur’s material kingdom (Britain)
    - Only vulnerable from within, through dissent and treachery in Arthur’s court
• According to Sir Thomas Malory, an English author and compiler of the legend of King Arthur, the code of these knights was the following:

• To never do outrage nor murder
• Always to flee treason
• To by no means be cruel but to give mercy unto him who asks for mercy
• To always do ladies, gentlewomen and widows succor (help, aid)
• To never force ladies, gentlewomen or widows
• Not to take up battles in wrongful quarrels for love or worldly goods
Knights as Heroes

• The knights fight for abstract principles of justice, honor, and purity

• They also have serious flaws—pride, lust, vengefulness—but they rise above their faults in their contribution to Logres

• Each knight is tested for his weaknesses
Knights as Heroes

- These assorted tales carry a valuable insight: **a man’s self-respect does not depend on external qualities (wealth, position, physical strength, size)**

- Instead, it depends on his private integrity and his valor
The Emblem of the Knights

The emblem of the Knights of the Round Table worn round the necks of all the Knights was given to them by King Arthur as part of the ceremony of their being made a knight.

The order’s dominant idea was the love of GOD, MEN and NOBLE DEEDS.
• **CROSS:** To remind them that they were to live pure and stainless lives, to strive after perfection and thus attain the Holy Grail

• **RED DRAGON of King Arthur:** Represented their allegiance to the King

• **ROUND TABLE:** Symbolized the Eternity of God, the equality, unity, and comradeship of the Order, and singleness of purpose of all the Knights.
